

PUMP SYSTEM

Electric Single Phase Basic Pump System

40 gpm 1 Hp 115 volt, 8 ft power cord
Marine Grade Bronze Centrifugal Pump
PVC Piping, 1 1/2" suction port w/ male quick coupler.

1" discharge w/ male quick coupler.
Highway Safety Yellow Poly Enclosure, lockable
Hinged, Sloped roof, all weather proof
No electrical switch provided NO PLUG

Gas Basic Pump System

180 GPM 5.5 Hp Gas power, 2" x 2" Poly Pump
PVC piping, 2" suction w/ Male quick coupler,
2" discharge valved w/ quick coupler.

Thru wall engine breather & thru wall exhaust.
Highway Safety Yellow Poly Enclosure, lockable
Hinged, Sloped roof, all weather proof

Electric Single Phase Multi Tank Pump System

180 gpm 5hp 1 phase 230 volt
Poly Self Priming Pump 2" x 2"
Multi port suction, 3 place 2"
Multi Port Discharge, 3 place 2" 1 place 1"
Use for mixing and blending with multi tank sets
All PVC piping & quick couplers for versatile use.
All suction and out lets are valved w/quick couplers.
Highway Safety Yellow Poly Enclosure, lockable
Hinged, Sloped roof, all weather proof

Electric Three Phase Multi Tank Pump System

180 gpm 5hp 3 phase 230/440 volt
Same as above with three phase motor.
Single phase motor option avail.

Gas Multi Tank Pump System

180 gpm 5hp Honda Powered Gas Motor
Same system with Poly Pump 2" x 2"

Electric 1 HP Pump Only

1 Hp 115V. 1 1/4" suction, 1" discharge
Marine Grade Bronze Centrifugal 40gpm
Poly Base Plate, 8 feet power cord no plug

Gas Pump Only

Gas Powered by Honda 5.5 Hp GX160 Industrial
2" suction x 2" discharge Glass Reinforced Poly
180 gpm, 18 foot suction lift, 50 psi

Electric 1-1/2 HP Pump Only

1 1/2 HP 115 V. Marine Grade Bronze Centrifugal Pump
1 1/4" suction, 1" discharge, poly base plate, 8' power cord,
(no plug)
